CHI SIAMO

Cipierre opera nel settore della produzione di serrature di sicurezza ed accessori per serramenti blindati.

Si contraddistingue per un grande dinamismo che ha permesso un'ininterrotta crescita nei suoi oltre 30 anni di vita.

Grazie al proprio know-how, come testimonia la commercializzazione internazionale di soluzioni innovative, ha fatto registrare un aumento esponenziale del proprio fatturato.

LA NOSTRA STORIA

La storia di Cipierre inizia nel 1978, in provincia di Roma (Guidonia) come fornitrice di lavorazioni meccaniche specializzate.

Dal 1984 decide di sviluppare il settore relativo alla sicurezza, con la progettazione e la realizzazione di accessori per porte blindate.

Negli anni successivi l'Azienda, che continua la propria attività anche per conto terzi, diventa un punto di riferimento nazionale e internazionale del settore con un proprio brand.

La costante crescita, permette nel 2016 di aprire una seconda sede a Tivoli Terme (RM), dove Cipierre trasferisce le linee di stampaggio e lavorazione della lamiera, tutte le linee di assemblaggio oltre che le direzioni tecniche operative e commerciali.

IL NOSTRO FUTURO

Il processo di crescita che Cipierre ha intrapreso oltre 30 anni fa continua il suo corso, con la volontà di farsi trovare sempre pronta e all'altezza delle sempre più esigenti e tecnologicamente avanzate richieste del mercato.

La qualità e la trasparenza di Cipierre viene garantita dalla certificazione "100% Made in Italy", rilasciata dall'Istituto per la Tutela dei Produttori Italiani.

Cipierre realizza i suoi prodotti in Italia utilizzando disegno e progettazione esclusivi e servendosi di materiali di qualità e di prima scelta.

Il Sistema di Certificazione "IT01-100% Qualità Originale Italiana" è una garanzia ulteriore che Cipierre offre ai suoi clienti, nazionali e internazionali.

WHO'S CIPIERRE

Cipierre is a manufacturing Company working in the production of high security locks and accessories for armoured doors.

Its great dynamism allowed a continuous growth in its more than 30 years of activity.

Thanks to its know-how, as evidenced by the excellent international appreciations of our innovative solutions for security, has seen an exponential increase of its turnover.

OUR HISTORY

The Company begins in 1978, as a sub-supplier of specialized machining processing in a plant located near to Rome (Guidonia).

Since 1984 Cipierre decided to develop the field of the security, with own design and manufacturing implementation of accessories for doors.

In the following years the Company continues its activities in sub-supplying, and develops its own brand, becoming a national and international reference for special security products.

The continued growth, in 2016 allows to open a new facility in Tivoli Terme (RM), where Cipierre moves the sheet and strip manufacturing lines, all the assembly departments and operative, commercial and technical directions.

OUR FUTURE

The process of growth that has taken Cipierre 30 years ago, is running thanks to the Company strategy aimed to satisfy the market requests and to propose always more technologically advanced solutions.

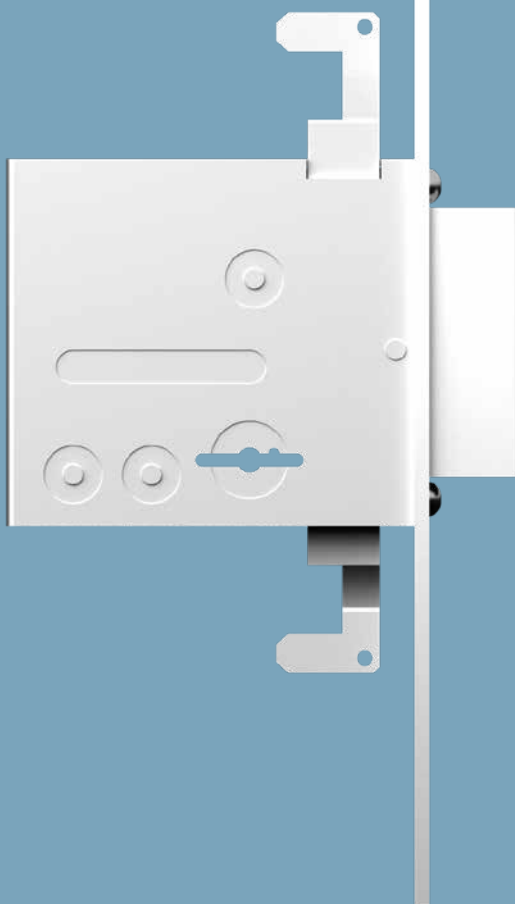

The quality and traceability of Cipierre products is guaranteed by the certification "100% Made in Italy", issued by the Institute for the Protection of Italian Manufacturers.

Cipierre manufactures its products in Italy using exclusive own design and using first choice quality materials.

The Certification System "IT01-100% Original Italian Quality" is a further guarantee that Cipierre offers to its customers.
